

# Forms and Permits

The City of Chester requires building permits prior to construction or remodeling activity in order to help protect and maintain the health, welfare, and safety of our citizens and business patrons. Building permits ensure that proper inspections are performed; the inspections, in turn, verify that construction or remodeling of a residence or business complies with code requirements.

For more information contact Brandi Abercrombie 803-581-1405 (**press # first** and then enter).

For inspection requests, contact Reggie McBeth 803-581-1405 or via email at [rmcbeth \[at\] chester.sc.gov](mailto:rmcbeth@chester.sc.gov) .
